SUMMARY

Experienced Full-Stack Developer with 5 years of hands-on expertise in designing, developing, and deploying web applications. Proficient in both frontend and backend technologies, including **React, React Native, NestJS, Next.js, Node.js, Express, Postgres,** and **MongoDB**. Skilled in creating responsive and user-friendly interfaces using modern libraries and frameworks such as **Material-UI (Mui), Ant Design, Chakra, React Bootstrap,** and **Tailwind CSS**. Familiar with DevOps tools like **Docker** and **Kubernetes** for containerization and orchestration. Strong problem-solving abilities and a proven track record of delivering high-quality solutions in agile environments. Eager to leverage technical skills and industry knowledge to contribute effectively to challenging projects.
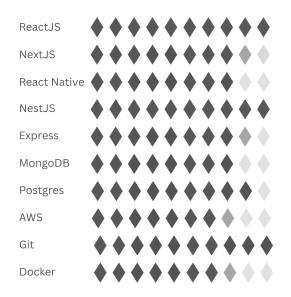

EDUCATION

University of Tsukuba

Bachelor's Degree in Computer Science
2014 – 2017

University of Tsukuba

Master's Degree in Computer Science
2018 – 2019

EXPERIENCE

Frontend Web Developer

Freelance | 2019 - 2020

- Developed responsive and user-friendly web applications for clients using modern frontend technologies such as React, Next.js, and React Native.js.
- Designed and implemented intuitive user interfaces, ensuring cross-browser compatibility and mobile responsiveness.
- Collaborated with clients to understand project requirements, provide technical recommendations, and deliver solutions that meet business objectives.
- Integrated third-party APIs and services to enhance functionality and user experience.
- Conducted code reviews, performed testing, and optimized performance to deliver high-quality products within project timelines.
- Managed project timelines, milestones, and communication with clients to ensure project success and customer satisfaction.

Full Stack Developer

SoftServe | 2020 - Mar 2024

- Developed scalable and efficient web applications using a full stack of technologies, including React, Next, Nest, Node.js, Express.js, Postgres, and MongoDB.
- Designed and implemented RESTful APIs to facilitate communication between frontend and backend systems, ensuring data integrity and security.
- Collaborated with cross-functional teams to gather requirements, plan project milestones, and deliver solutions that meet client expectations.
- Implemented authentication and authorization mechanisms using technologies such as JWT (JSON Web Tokens) to secure web applications.
- Conducted code reviews, performed unit testing, and implemented continuous integration and deployment (CI/CD) pipelines to maintain code quality and streamline deployment processes.
- Utilized Agile methodologies to iterate on project features, prioritize tasks, and deliver software increments on schedule.
- Provided technical guidance and mentorship to junior developers, fostering a collaborative and productive team environment.
